Dear Secretary of State,

I write to you with regard to the proposals by the Greater Cambridge Partnership to build a busway and cycle path from the Cambridge Biomedical Campus to the A11 Travel Hub (website [https://urldefense.com/v3/__https://www.greatercambridge.org.uk/sustainable-transport-programme/public-transport-schemes/cambridge-south-east-transport/cambridge-south-east-transport-phase-2_!!HEBAkwG3r5RD!8d7BkPSnXEK8Ez9SRhXX8hbU1ssv_2Pn_xD9weusWHYFSGJ_H1qh9eOXsR5-686CuqcO04Kbz_3kMKaayOUgq2hoSWnh0Uo\\$](https://urldefense.com/v3/__https://www.greatercambridge.org.uk/sustainable-transport-programme/public-transport-schemes/cambridge-south-east-transport/cambridge-south-east-transport-phase-2_!!HEBAkwG3r5RD!8d7BkPSnXEK8Ez9SRhXX8hbU1ssv_2Pn_xD9weusWHYFSGJ_H1qh9eOXsR5-686CuqcO04Kbz_3kMKaayOUgq2hoSWnh0Uo$ refers) refers).

I am a resident of Cambridge (of long standing, 30 years) and am commenting on the project as a local resident affected by local transport infrastructure.

I would like to express my support for this project and to state that my position is IN FAVOUR of this project as planned by the GCP.

Additional transport infrastructure from the southern outskirts of Cambridge to the Biomedical Campus is essential, as the increasing number of people working on the Biomedical campus and living to the south of the city are causing significant strain on existing road transport. Bus services on this route are insufficient and transporting all these commuters by car is infeasible. Meanwhile, a cycle route is available but assumes ability to cycle a significant distance every day - which is not feasible for many people and contributes to discrimination against those not fit and fully physically able.

Therefore the busway connecting the transport hub on the A11 (with car parking for those coming from further afield), via several large villages where many people live, to the Biomedical Campus is an essential piece of infrastructure.

I urge you to approve this scheme in its current form.

Yours Sincerely,

Nicolai Plum
